

Prowler

The Prowler is a fully customized Kawasaki Mule, powered by a modified 617cc liquid cooled V-twin engine. The Prowler makes an ideal shooting platform for smooth or rough terrain where a full sized vehicle cannot be used. The Prowler is quick and agile with a maximum speed of 50km/h and a fully adjustable air ride system. The Prowler can even be outfitted with a wide range of jib arms as well as the Giraffe Compact, GFM, or 17' MovieBird crane.

Prowler
