

# Hot Dog and Hy-Hy Dollies

Both the Hot Dog Dolly and Hy Hy Dolly offer an excellent, secure base for the wide range of jib arms offered at WFW: Aerocrane, Advanta-jib, Porta-jib, Straight Shooter, Tele-jib, Meerkat and CG10. Both dollies can be adapted with either Euro or Mitchell mounts. The Hot Dog Dolly is a smaller, lighter base with adjustable wheels for crab, two wheel steering or free wheeling. The Hy Hy Dolly based on the Chapman Hybrid has pivoting wheels to widen the base while providing crab and two wheeled steering.

Hot Dog Dolly Quick Specs
