

# CAMERA CAR - TYPE THREE

## CAMERA CAR

### WHITES SPECIALTY EQUIPMENT

Whites has several Camera Cars in the fleet, all as versatile as the others. The Type Two is custom built, with a shorter wheel base and is powered by an E-450, 6.8L overhead cam V-10. It has fully adjustable air ride suspension, Clear Com communication, a 400 Amp, 45kW crystal sync (single or three phase) blimped generator, and a 1800 Watt true sine wave inverter. There are five shooting platforms which include a quick release front platform, camera rails and four way leveling heads and a wide assortment of speed rail fittings/hardware.
