

# EXO CAR

## CAMERA CAR

### WHITES SPECIALTY EQUIPMENT

The EXO Camera Car is a custom built electric vehicle. From the ground up this vehicle was designed with the film maker in mind. Camera mounts can be placed just about anywhere and all the surfaces are cheese plated for adapting whatever is required. The EXO features four wheel independent suspension and adjustable air ride. The EXO can be run with a remote head on a short jib arm or car pole. The EXO is delivered in a custom trailer outfitted with an array of complementary pipe, grip fittings and camera mounts.
