

GIRAFFE CRANES

CRANES

WHITES SPECIALTY EQUIPMENT

The Giraffe cranes are renowned for their sturdiness, versatility and ease of use. All three Giraffes are modular in length and can be quickly built into their various modes. The Compact is light and nimble for its maximum length and payload. It can be used on standard dolly track and makes an ideal crane arm at 16' on the WFW Camera Car. The Classic and Long Ranger are both single or dual ride-able and have maximum lengths of 31'6" and 41'4" respectively.

Giraffe Crane Quick Specs

Mode Lengths-Fulcrum to Leveling Head

Giraffe-	Mode 1		Mode 2		Mode 3		Mode 4		Mode 5		Max. Height	
Compact	8'0"	2.4m	22'9"	4.7m	22'9"	6.9m					22'6"	6.7m
Classic	7'10" ²	2.3m ²	11' ²	3.4m ²	16'6" ²	5.1m ²	21'10" ¹	6.7m ¹	31'6"	9.5m	29'0"	8.6m
Long Ranger	13'5" ²	4.1m ²	26'6" ²	6.2m ²	26'6" ¹	8.2m ¹	34'0"	10.5m	41'4"	12.7m	42'0"	12.5m

¹Max length for single rider or 350lbs (160kg). ²Max length for two riders or 500lbs (225kg)

Max Height is approximate height to leveling head, crane pan direction may affect height
